

## Celsius, Fahrenheit, Kelvin

*New rule:*

## Rule VIII §51 English-Letter Indicator with Abbreviations

d. (*new section*) The English-letter indicator must not be used before a single-letter abbreviation shown with a left superscript or subscript.

Temperature is measured in °C and °F.

Figure 1 shows a 2x12 grid of dot patterns. The top row contains 12 patterns for digits 0-9, and the bottom row contains 12 patterns for letters A-Z. Each pattern is a unique arrangement of dots on a 2x12 grid.
